No. 1

Articles

Results of the 1999–2000 collaborative exercise and proficiency testing program on mitochondrial DNA of the GEP-ISFG: an inter-laboratory study of the observed variability in the heteroplasmy level of hair from the same donor
A. Alonso, A. Salas, C. Albarrán, E. Arroyo, A. Castro, M. Crespillo, A.M. di Lonardo, M.V. Lareu, C.L. Cubría, M.L. Soto, J.A. Lorente, M.M. Semper, A. Palacio, M. Paredes, L. Pereira, A.P. Lezaun, J.P. Brito, A. Sala, M.C. Vide, M. Whittle, J.J. Yunis and J. Gómez (Spain, Argentina, Colombia, Portugal, Brazil) 1–7

The deviation of bullets passing through window panes
J. De Kinder, S. Lory, W. Van Laere and E. Demuynck (Belgium) 8–11

Blind field test evaluation of Raman spectroscopy as a forensic tool
S.D. Harvey, M.E. Vucelick, R.N. Lee and B.W. Wright (USA) 12–21

Background interference from car carpets—the evidential value of petrol residues in cases of suspected vehicle arson
K. Cavanagh, E. Du Pasquier and C. Lennard (Australia) 22–36

Elemental analysis of bone: proton-induced X-ray emission testing in forensic cases
M.W. Warren, A.B. Falsetti, I.I. Kravchenko, F.E. Dunnam, H.A. Van Rinsvelt and W.R. Maples (USA) . . . 37–41

High resolution Y chromosome typing: 19 STRs amplified in three multiplex reactions
E. Bosch, A.C. Lee, F. Calafell, E. Arroyo, P. Henneman, P. de Knijff and M.A. Jobling (UK, Spain, The Netherlands) 42–51

Jewish population genetic data in 20 polymorphic loci
A. Picornell, C. Tomàs, G. Jiménez, J.A. Castro and M. Misericòrdia Ramon (Spain). 52–58

Postmortem serum uric acid and creatinine levels in relation to the causes of death
B.-L. Zhu, K. Ishida, L. Quan, M. Taniguchi, S. Oritani, D.-R. Li, M.Q. Fujita and H. Maeda (Japan) 59–66

Improved estimation of postmortem interval based on differential behaviour of vitreous potassium and hypoxantine in death by hanging
J.I. Muñoz Barús, J.M. Suárez-Peñaranda, X.L. Otero, M.S. Rodríguez-Calvo, E. Costas, X. Miguéns and L. Concheiro (Spain). 67–74

Drugged drivers in Norway with benzodiazepine detections
S. Skurtveit, B. Abotnes and A.S. Christophersen (Norway). 75–82

Announcement of population data

Analysis of 13 tetrameric short tandem repeat loci in a population of Tuscany (Central Italy) performed by means of an automated infrared sequencer
U. Ricci, I. Sani, L. Giunti, S. Guarducci, S. Coviello and M.L. Giovannucci Uzielli (Italy) 83–85

Y-chromosome STR haplotypes in a southwest Spain population sample
J.-J. Gamero, J.-L. Romero, J.-L. González, M. Carvalho, M.-J. Anjos, F.C. Real and M.-C. Vide (Spain, Portugal). 86–89

Population genetics of the STRs D3S1358, FGA, D2S1338, D8S1179, D21S11, D18S51 and D19S433 in the Pomerania–Kujawy region of Poland
J. Czarny (Poland) 90–92

PII: S0379-0738(02)00041-5

Instructions to authors 100–102

Nos. 2–3

Review
A review of Anglo-American forensic professional codes of ethics with considerations for code design
J.R. Mario (USA) 103–112

Articles
Simultaneous analysis of γ-hydroxybutyric acid, γ-butyrolactone, and 1,4-butanediol by micellar electrokinetic chromatography
J. Dahlén and T. Vriesman (Sweden, UK) 113–119
Quantitative determination of amphetamines, cocaine, and opiates in human hair by gas chromatography/mass spectrometry
L. Skender, V. Karačić, I. Brčić and A. Bagarić (Croatia) 120–126
HPLC simultaneous determination of glycerol and mannitol in human tissues for forensic analysis
A. Kiyoshima, K. Kudo, N. Nishida and N. Ikeda (Japan) 127–133
Articular surfaces of the pectoral girdle: sex assessment of prehistoric New Zealand Polynesian skeletal remains
A.M.C. Murphy (Australia) 134–136
Effects of acute cold exposure on blood–brain barrier permeability in acute and chronic hyperglycemic rats
N. Arican, M. Kaya, R. Kalayci, M. Kucuk, V. Cimen and I. Elmas (Turkey) 137–141
Rapid analysis of 3,4-methylenedioxymethamphetamine: a comparison of nonaqueous capillary electrophoresis/fluorescence detection with GC/MS
C. Fang, Y.-L. Chung, J.-T. Liu and C.-H. Lin (Taiwan) 142–148
Evaluation of scientific evidence using Bayesian networks
P. Garbolino and F. Taroni (Italy, Switzerland) 149–155
On-column derivatization for determination of amphetamine and methamphetamine in human blood by gas chromatography–mass spectrometry
M. Nishida, A. Namera, M. Yashiki and T. Kojima (Japan) 156–162
Light microscopical investigations on structural changes of skeletal muscle as artifacts after postmortem stimulation
C. Henssge, H. Wang and B. Hoppe (Germany, PR China) 163–171
"Natural death" of a patient with a deactivated implantable-cardioverter-defibrillator (ICD)?
M. Junge, J. Weckmüller, H. Nägele and K. Püschel (Germany) 172–177
The "Skin–skull–brain model": a new instrument for the study of gunshot effects
M.J. Thali, B.P. Kneubuehl, U. Zollinger and R. Dirnhofer (Switzerland) 178–189
A study of the morphology of gunshot entrance wounds, in connection with their dynamic creation, utilizing the "skin–skull–brain model"
M.J. Thali, B.P. Kneubuehl, U. Zollinger and R. Dirnhofer (Switzerland) 190–194
A "skin–skull–brain model" for the biomechanical reconstruction of blunt forces to the human head
M.J. Thali, B.P. Kneubuehl and R. Dirnhofer (Switzerland) 195–200
Demonstration of a chloroquine fatality after 10-month earth-grave
F. Musshoff and B. Madea (Germany) 201–204
DNA genotyping of unbuffered formalin fixed paraffin embedded tissues
B. Legrand, P. de Mazancourt, M. Durigon, V. Khalifat and K. Crainic (France) 205–211
Y-STR DNA amplification as biological evidence in sexually assaulted female victims with no cytological detection of spermatozoa
I. Sibille, C. Duverneuil, G. Lorin de la Grandmaison, K. Guerrouache, F. Teissière, M. Durigon and P. de Mazancourt (France) 212–216

Validation of the STR DXS7424 and the linkage situation on the X-chromosome
J. Edelmann, S. Hering, E. Kuhlisch and R. Szibor (Germany) 217–222
Factors influencing the precision of estimating the postmortem interval using the triple-exponential formulae (TEF). Part I. A study of the effect of body variables and covering of the torso on the postmortem brain, liver and rectal cooling rates in 117 forensic cases
L.M. Al-Alousi, R.A. Anderson, D.M. Worster and D.V. Land (UK) 223–230
Factors influencing the precision of estimating the postmortem interval using the triple-exponential formulae (TEF). Part II. A study of the effect of body temperature at the moment of death on the postmortem brain, liver and rectal cooling in 117 forensic cases
L.M. al-Alousi, R.A. Anderson, D.M. Worster and D.V. Land (UK) 231–236
A study of the shape of the post-mortem cooling curve in 117 forensic cases
L.M. Al-Alousi (UK) 237–244
Computer aided shot reconstructions by means of individualized animated three-dimensional victim models
J. Subke, S. Haase, H.-D. Wehner and F. Wehner (Germany) 245–249
An unusual airplane crash—deadly life saver. Unintentional activation of an automated reserve opening device causing airplane accident
G. Lasczkowski, S. Hasenfuss, M. Verhoff and G. Weiler (Germany) 250–253
Effects of refrigeration on the biometry and development of *Protophormia terraenovae* (Robineau–Desvoidy) (Diptera: Calliphoridae) and its consequences in estimating post-mortem interval in forensic investigations
J.-B. Myskowiak and C. Doums (France) 254–261
Evaluation of diagnostic tools applied in the examination of sudden unexpected deaths in infancy and early childhood
M. Arnestad, A. Vege and T.O. Rognum (Norway) 262–268
Retrograde transthoracic venous bullet embolism.. Report of a case following a single gunshot with multiple wounds in the left arm and chest
J.S. Lucena and C. Romero (Spain) 269–272

Announcement of population data
Y-STR haplotype data and allele frequency of the DXS10011 locus in a Japanese population sample
H. Koyama, M. Iwasa, T. Tsuchimochi, Y. Maeno, I. Isobe, Y. Seko-Nakamura, J. Monma-Ohtaki, T. Matsumoto and M. Nagao (Japan) 273–276
Data for nine autosomal STRs markers (CSF1PO, D13S31, D16S539, D7S820, F13A01, FESFPS, TH01, vWA, TPOX) from Venezuela
L. Pineda-Bernal, L. Borjas-Fajardo, W. Zabala, E. Fernández, W. Delgado, A. Salas, P. Sánchez-Diz and A. Carracedo (Venezuela, Spain) 277–278
Polymorphisms of eight STR loci in Chinese and African (Xhosa) populations
B. Wang, H. Pang, Y. Koda, M. Soejima and H. Kimura (Japan) 279–280
Genetic profile of the Madeira Archipelago population using the new PowerPlex® 16 System kit
A.T. Fernandes, A. Brehm, C. Alves, L. Gusmão and A. Amorim (Portugal) 281–283

Letter to the Editor 284

Diary of future events 285–287
